

The New STAYPUT™ DOME HOOK

NOW AVAILABLE

from your

STAYPUT™ FASTENER DISTRIBUTOR

- Horizontal and Vertical models
- Simple installation
- Safe, low profile design.
- 100% corrosion free
- 7 attractive colours
- Unique design
- Australian made quality, using UV stabilized nylon

The Dome Hook was designed for securing fabric to a flat surface using Stayput™ Shock Cord Loops in either horizontal or vertical tension applications.

Applications include sand pit and pool covers, boat deck fittings, drop blinds in walkways and verandahs.

When not in use, the low profile design minimizes the risk of being a trip or snag hazard. The Dome Hook is a safer option for use where children play or in foot traffic areas.
